

# RECYCLE THOSE CAMPAIGN SIGNS

Here's How

During election season, campaign signs dot yards and roadsides across the country.

But what happens to all these signs after the elections are over? What is the best way to dispose of them?

**NO** ❌

**Do not put campaign signs in your curbside recycling container or a drop-off recycling container!**

Campaign signs are a recycling challenge because they're made from multiple materials, such as paper, plastic and metal. Disposing of them requires taking them apart and disposing of each portion based on its material.

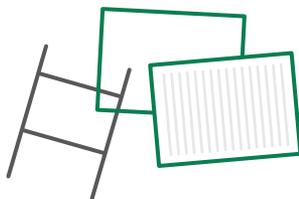

You can do this here:

**Medina County Solid Waste District facility**

8700 Lake Road, Seville

Mon. through Fri., 6:00 a.m. until 4:30 p.m.

Saturday, 7:00 a.m. until Noon.

*Find out the steps on page two of this flyer.*

Before tossing your campaign sign, consider saving it for future use. You could attach a new message to the board and use it to promote a special event. A local school or nonprofit organization may be able to use the sign, too. If you don't want to save the entire sign, you may be able to reuse the wire stand for future signs.

**Can they use it?**

If you don't know, please find out!

# RECYCLE THOSE CAMPAIGN SIGNS

Here's How

Here's what you can do at 8700 Lake Road, Seville  
(Specialty Waste Building):

- 1 Break down the sign by detaching the metal wire stand from the sign itself. The metal wire is made of steel. Place the metal in the "METAL" gaylord (large cardboard box).

- 2 If the sign is made of paper, place the paper in the "PAPER" gaylord.

- 3 If the sign is sturdy, corrugated plastic, that means it's made from plastic #5. Place the plastic in the "PLASTIC" gaylord.

- 4 If the sign is a very thin, flexible plastic, that means it's made from film plastic #2 or plastic #4. Place the plastic in the "PLASTIC" gaylord.

## Can they use it?

If you don't know, please find out!
